

Take #1 Mr. Graig (Calvin) 5.7 CIAK 1 PRESO

The United States today is threatened today with many acts of racial violence both by internal disorder both by a foreign element such as Robert F. Williams formerly of North Carolina is now in China [and what is the Klan planning on doing if this violence comes The Klan takes this stand as long as the law enforcement officers of any section of this country can retain the violence to the Negro neighborhoods or to the neighborhoods starting or creating such violence the Klan will naturally stay out of it but in the evident violence breaks out in to the white neighborhoods the Klan will go to the aid and rescue of the white people.]. There's no doubt in anyone's mind that it would be a parched earth here in America if the white man and the black man starts open warfare in this country

[ If this violence comes in America thousands upon thousands of Klan people, hundreds of thousands of white patriots will be the opposing army that will not allow our cities to be destroyed our communities our homes to be burned and certainly these people will break out their arms and they will defend their cities and their homes and their communities their churches, and their schools against any oppression against any terriorists type movement by the Negro element...As you well know the Klan has been in a training period now for several years on guerrilla type warfare also...we have a school in the North Georgia area that we've been operating for some time teaching our people self defense, defensive methods in the event of a war scare here in the United States by the black and the white people.

Take #3 Mr. Graig

We speak of racial equality...there is no such thing...as you well know the white man's culture is altogether different then the black peoples...while the white man was in Europe thinking about advancing his race the black man in being in Africa had no time as any history been brought forth...that he has tried to cultivate his race whatsoever...while animals he could have built harness for there's no...no wait a minute we're getting all messed up on that...

Take #4 Mr. Graig

5.7.

[There's certainly a fact that all men were created by God but certainly there is no equality between the black man and the white man..]but as an example let us compare the Negro here in America living in a segregated society and one living in an integrated society...here in Atlanta where the Negro has had to live in this so called segregated society he has accumulated a tremendous amount of wealth... there are more Negro who own their own homes in Atlanta, Georgia per capital then any city in the world...there are more Negro owned businesses in Atlanta, Georgia per capital then any city in the world...the first FDIC chartered bank was the Citizen Trust Company here in Atlanta owned and operated by Negro...the first Negro owned operated radio station was an Atlanta owned radio station...There are more Negro colleges located in Atlanta, Georgia per capital then any city in the world...

All of this tremendous wealth for the Negro people has been achieved under a segregated society...cities like New York, Philadelphia, Chicago, Detroit which has had integration for over a hundred years cannot come up with such brilliant standards of Negro accomplishments far as wealth is concerned in the community...there's no doubt in anyone's mind that the Negro in his community lives altogether different then the white man does...when he goes to sit down to eat he takes a different type of food ordinarily not eaten by the white people or the white society...there's no difference if you take in consideration that every Negro in the city of Atlanta has an opportunity to go to a university yet many of them except that opportunity...there's fre Negros that has ever achieved the successful ladder regardless of where they are from that they could have achieved...as you well know, throughout the United States today there are a considerable number of elected Negro officials but Atlanta, Georgia has more Negro elected officials then any other city in the United States...again we state that has been achieved under a segregated society. [now we talk for just a moment is the Negro equal with the white man... the Negro culture no doubt is based on a different level then the white man's culture...the Negro then raised and reared in the continent of Africa has always thought of voodoo has always thought of things is not commonly even known to the white man and we are having that culture even brought into America today even here in the city of Atlanta many acts of voodoo is been practiced in the Negro community...the Negro living in one of the richest continents in the world which is the continent of Africa having many wild animals that he could have domesticated..

There's no known history where he has even built a harness to domesticate these wild animals...he rode barefooted over many natural resources or mineral resources such as diamonds and rubies in the continent of Africa and he didn't have the intelligence enough until the white man came to Africa to regain this natural mineral resources...there's no history where the Negro even built a boat in the continent of Africa until the white man came...but let us bring this fact out even in the Congo as long as the white man or the Belgians, Germans or the Dutch had control of the Negro community they were well kept in check were being well educated hospitals were being built schools were being built but the minute they got their freedom or were given the power to set up their own country they went back to the savagery that their forefathers preached and practiced. ]

Take #5 Mr. Graig

As I brought out that every human being was created by God...  
He put the black man in Africa and the white man in Europe...  
He put mountains and oceans between each race but this so  
called amalgamation of the races.....

Take #5 Mr. Graig

You hear much talk about white girls going with Negroes  
and Negro boys going with white girls...here in the Georgia  
area we do not have much trouble on that line...we have found  
when you have different races going with the other races between  
the blacks and the whites it's always a low class of a white  
girl or white boy and usually what we call an "allie Negro"...  
most of the races in the state of Georgia are very proud of their  
heritage...they are very proud of their race and certainly they  
want to keep it that way...as we have previously stated  
that God created all people He created the black man black  
because he wanted them black...He created the white man  
white because He wanted them white and we certainly feel  
that amalgamation of the races is not of God's desire but  
of the work of the devil.

Take 16 Mr. Graig

Question: Mr. Graig do you think there is a sexual difference between the Negro and the white?

Mr. Graig: Certainly there are...the white person is more of..you might say human being were the Negro is more like an animal instinct for sexual relations is concerned...their morals is much lower

Take #7 Mr. Graig

Question: You used the term before - "allie Negro". Define it for us.

Mr. Graig: Well the defination of an "allie Negro" to the white man is just like an alley cat..in other words he will be any body's cat he just low maral standard person...he's filthy in his environment he's more or less what we commonly call in the white section as white trash or in the Negro section as an "allie Negro"

Question: Mr. Graig, you say they have low morals. Isn't it true the Negro has been Christainized and has adopted the marals of the Christian church?

Mr. Graig: In a lot of instantces that's true but also you can go through the Negro communities regardless of what city in the United States and we commonly call what we call gettos that they're filthy in their environment...the illegitmacy of the Negro is ten times it is of the white person...they consist of 10% of the population of the United States and yet they commit over 75% of the crime...so even though they have been closely connected with the Christian church their morals are still very low below the white man

Question: What do you think is the best position for the Negro in terms of operating within a society?

Mr. Graig: Well naturally I feel that the best terms or the possible best advantage of the Negro is to more or less forge his actual living in a segregated society...I certainly feel that every Negro should have their oppportunity to earn a decent living for his family...I certainly feel that he should be given an ample education...I certainly feel that he should be given a lot of oppportunities but he must learn that he must work for

these opportunities...he must learn that a welfare state will not benefit the Negro...in other words he must in order to achieve the society that he wants that he must work for it... he must be cultivative in his own race...he must realize that in order for the Negro to continue to gain the educational standards of higher education that he must go through the colleges...he must go through the universities in order to have a better community in where he lives at...he must clean up the environment around his neighborhood...he must see that the filth is not allowed to remain in his community...he must see that if he has a job that he gives the man a days work for a days pay...here in the city of Atlanta there are hundreds of jobs going today unwanted because many of them can receive just as much on welfare as they can going out here working for a living so they won't take the jobs where it would be for the advantage if they would work to get off of living off of the state and they could get a better opportunity and they would be better excepted in the community.

Question: Apropos of what you said before of the Negro being treated as a human being and your reactions to this, should segregation fail and all universities become totally integrated...you son or daughter went to such a university and they became close friends with Negros how would you feel about that because they would be in an environment isolated from that of which they were reared

Mr. Graig: Well now you must remember this...I have had very close contact with Negros all of my life being raised in a community where there were Negros living in this community not as been objected they was excepted in this community...you might say

it was an integrated community and we always helped these old poor Negroes out but certainly as far as my daughter or son actually going with a Negro girl or Negro boy would be highly objected to it but as you well know the American people today have excepted the Negro here in America...they work with them...they ride the trollys with them...they shop with them and everything else but when it comes back to the home naturally I feel the Negro should go to his house and let the white man go to his

Take | Mr. Graig

Question: Mr. Graig do you have a weapon?

Mr. Graig: Yes I do

Question: A pistol?

Mr. Graig: Yes I do

Question: Would you show it to us?

Mr. Graig: I'd be glad to

Question: Now why do you have this particular type of weapon?

Mr. Graig: Well it's a good handy weapon...it's well re-enforced...it's a big gun...it's a .44...I just keep it around for self protection ]

Question: Would you give us a situation wherein this self protection would come into practice

Mr. Graig: Well naturally it being a controversial person if I was ever attacked or anything like that I would have my own gun for self-protection...I have a license...a death pistol license and also a special deputy of the county so it's just good to have around with all the...of course personally I would never take a gun out on the street...I always keep one in my office or in my home or in my car...as far as toting one in the street I never do

Question: You mentioned before that there was a camp which taught anti-guerrilla or guerrilla warfare

Mr. Graig: Correct

Question: Where do you get the experience to teach this kind of thing to people who are students?

Mr. Graig: Well we have men that... [.99 per cent of our people are ex- service men that have been in the army, navy, commanders, the marine corps and they are the one that are code ex- ]

Question: Do you have any affiliation with the minute men?

Mr. Graig: None what so ever...nor any other group...we're not affiliated with any other group at all

Question: Do you feel that all people should have a weapon?

Mr. Graig: [ I feel that it's the constitutional right for every citizen regardless if he's black or white to defend his home and the best method is to have arms ]

Question: Now on that question on Dean Rusk...his daughter recently married a Negro. Can you explain how you feel about that and what you think the situation was...whether it was political or otherwise and the significance of such a matter

Mr. Graig: No I do not think it was political...in fact Dean Rusk was very objective to it...he refused to give his daughter away in marriage to this Negro and as of a white and black marriage is of the history of such marriages are never successful and I certainly do not feel that this marriage will be successful

Question: Is Dean Rusk from the North or the South?

Mr. Graig: He is from the state of Georgia...in this area

Question: He is a Georgian

Mr. Graig: Right

Take # Mr. Graig

Question: Would you please demonstrate the facility of this gun

Mr. Graig: I would be glad to...this is a .44 pistol...it's a very fast loading pistol...as you can well see...rapid fires so fast you can load it and unload it...by using a .44 you can load it very fast...you can unload it just as fast

Question: Before you mentioned that you don't carry a gun personally but leave it in the car or in your home...could you explain to us if ever there has arisen a situation that you felt that threatened or in need of using the weapon?

Mr. Graig: Well naturally I get threats all the time but I have never used a weapon on anyone...I have never drawn a weapon on anyone in other words the use of my gun is to me like any other average citizen...I feel that every citizen should own a gun...I feel that it is for his own protection particularly with the threat of violence throughout the United States...this gun here is what I keep in my office...this is the type of gun I carry in my car is an automatic weapon that I carry in my car which is a very, very good gun and I must say that I am a good shot with a pistol

Question: You mentioned that you were a deputy sheriff

Mr. Graig: A Special Deputy Sheriff

Question: Is that a voluntary or is that an appointed position?

Mr. Graig: That's a voluntary position

Question: Are you involved in politics?

Mr. Graig: Yes and no

Question: As a candidate?

Mr. Graig: I am not running as a candidate at this time

Question: Have you ever

Mr. Graig: Yes I have...I run as the state Senator and lost that office by 435 votes

Question: You run on your own ticket

Mr. Graig: No...I run as a Democrat

Question: Is it affiliated with the major Democratic organization

Mr. Graig: It is affiliated with the major Democratic party

Question: Have you ever been in the situation to use the gun

Mr. Graig: No I have not

Take #10 Mr. Graig

Question: Is your family being trained in the use of weapons, Mr. Graig?

Mr. Graig: My daughter...I have a daughter 15 years old and also my wife are expert shots with a rifle and a shotgun

Question: What about a pistol?

Mr. Graig; With a pistol they are shots...lets put it that way

Question: What about your son?

Mr. Graig; My son is only 2 years old...but he will slowly become acquainted with arms

Thank you very much Mr. Graig
