Dear friends,

we send you a catalogue of our latest production.
We hope you will find some film to distribute in the
United States.

As far as "Finally Got The News" is concerned we
ask you again to send us the sound-track. We cannot go
on in the negotiations with two televisions because we
have only a mute copy of the film which was counter-typed
when Watson had been in Rome. It's very urgent!

Please, let us know if you have produced or are
producing something else. We will communicate you our
program of 1971 as soon as possible.

Best wishes

(Mario Benocci)
