Dear friend,

Black Star Productions is now established in its new office at 19230 James Couzens, in Detroit. We are in the process of organizing our film making and distributing operations in the U.S. and, confirming our international contacts. It would greatly help our work, if you could send us a listing of the films you have made and are distributing, based on the agreement made by you with John Watson. If possible we would like these listings to be in English. Communications on the mutual distribution of films, will be made through me, Rachel Bishop, on this end for Black Star Productions.

In regards to the agreement made with West German T.V.; will we have to send you another print of "Finally Got The News", or will you have a print made? Please notify us on this matter immediately.

Thank you for your cooperation.

Sincerely,

Rachel Bishop  
Black Star Productions

P.S. Please note our new address: Black Star Productions
